

Concentrated Nutritional Support for Foals

Main Ingredients

Soya bean meal, Oats, Wheat feed, Barley, Soya beans toasted, Wheat, Maize, Molasses, Alfalfa, Sunflower meal, Whey powder, Soya bean oil.

Key Features

- 20% protein with milk solids and extra Calcium encourages sound growth.
- Supports foal nutrition when mares' milk is declining in quantity and quality.
- Reduces the effects of the stress of weaning.
- Small pellet format eliminates feed sorting and guarantees diet balance.
- Yea-Sacc® live yeast facilitates digestive system development by improving forage utilisation and hindgut function.
- Bioplex® minerals and Yea-Sacc® live yeast improve mineral utilisation for bone development.
- Selplex® organic Selenium helps to maintain additional antioxidant support.
- Provox natural plant antioxidants improve vitamin E utilisation.
- Can be introduced from three weeks of age.

Instructions for Use

Feed to growing foals from 1 to 8 months of age as a supplement to forage and water. Do not exceed the feeding rates in feeding guidelines table. Over-topped foals or those showing signs of DOD may be fed GAIN Opti-Care Balancer or GAIN Stud-Care 32 Balancer as an alternative.

Feeding guidelines

		kg/100 kg bodyweight/day	kg/100 kg bodyweight/day (Thoroughbred)
GAIN Foal Pellets	Foal/Weanling	1.0 - 2.0	0.5 - 2.0
